## PROFESSIONAL SUMMARY

Detail-oriented Computer Engineering student with a focus on Software Engineering and AI-integrated applications. Proficient in Java, the MERN stack, and Generative AI API integration. Demonstrated experience in building scalable backend architectures, implementing secure authentication, and developing AI-driven features like prompt engineering and automated report generation. Passionate about software reliability, clean code, and solving complex problems in a collaborative, agile environment.

## TECHNICAL SKILLS

**Languages:** Java (Core & OOP), JavaScript (ES6+), SQL (MySQL), HTML/CSS.

**Full-Stack & Backend:** Node.js, Express.js, React.js, RESTful APIs, MERN Stack, EJS, JWT Authentication.

**AI & Cloud:** Google Gemini AI API, OpenAI API Integration, Prompt Engineering, Puppeteer (PDF Automation).

**Tools & DevOps:** Git, GitHub, Postman, MongoDB Atlas, ImageKit, VS Code, Agile Principles.

## PROJECTS

### Interview AI Platform (Full-Stack & AI)

July 2024

*MERN Stack, Google Gemini AI, Puppeteer*

- Engineered an AI-powered preparation tool that utilizes GenAI to analyze resumes and job descriptions, providing technical/behavioral skill-gap analysis.
- Integrated Gemini AI for dynamic question generation and match scoring, showcasing ability to handle LLM APIs and prompt engineering.
- Implemented secure JWT-based user authentication and MongoDB persistence for storing candidate data and history.
- Automated the creation of professional PDF reports via Puppeteer, improving user value by 40%.

### Cravio - Food Discovery Platform

Aug 2024

*React.js, Node.js, Express, MongoDB*

- Developed a scalable full-stack application featuring role-based access control for users and food partners.
- Built complex RESTful APIs for cart management, order processing, and media uploads via ImageKit.
- Designed a responsive and modular front-end using React and Tailwind CSS, focusing on high-performance user interactions.

**QuoraLite - Social Discussion App**

**Feb 2024**

*Node.js, Express, EJS, MongoDB*

- Built a full-featured CRUD application for community knowledge sharing using the MVC architecture.
- Leveraged EJS for server-side rendering to ensure fast initial page loads and SEO-friendly structures.

**EDUCATION**

---

**Vishwakarma Institute of Information Technology**

**Pune, India**

*B.Tech in Computer Engineering (Software Engineering) — CGPA: 8.79*

*Jan 2024 – Jun 2027*

**Purnmal Lahoti Government Polytechnic**

**Latur, India**

*Diploma in Information Technology — Percentage: 87.88%*

*Oct 2021 – Jun 2024*

**COURSEWORK & CERTIFICATIONS**

---

- **Core Subjects:** Data Structures & Algorithms, Database Management Systems (DBMS), Operating Systems.
- **Certifications:** Full Stack Web Development (Angela Yu), Certificate of Merit in Web Development.
- **Achievements:** Active solver on LeetCode; focused on algorithm optimization and clean code practices.
